

27. Hug Blocks

Several Hug Block patterns have been designed and are available to download from the Resources page of the Quilts of Valour – Canada™ website.

Any block pattern (traditional, commercial or your own design) can also be used to make a Hug Block, provided it meets our size and fabric requirements.

All completed Hug Blocks must be 9 1/2" square unfinished, unwashed and untrimmed.

The Northcott Stonehenge OH Canada line of fabric is to be used when making your blocks. This will ensure they will coordinate with the other blocks in a completed quilt.

Fabric for use in making Hug Blocks is available for purchase in fat quarter bundles through the on-line store on the Quilts of Valour – Canada™ website.

Completed Hug Blocks are to be sent to the Hug Block coordinator at the mailing address provided with the pattern.

Please do NOT mark or write information on your block.

Please include a return address on your mailing envelope. This allows us to record a count of the Hug Blocks received and record where they are from. It also enables us to group the blocks for a quilt top so that they represent as many places across Canada as possible.

Anyone interested in completing a Hug Block Quilt from submitted blocks can email hugblocks@quiltsvalour.ca and a set of blocks from across the nation will be sent to you.
